Ma'am,

Here is an example of the general advice I give to candidates.

Very Respectfully,

LT (b) (6)

(b) (6),

You can still be considered for a spot at the Naval Academy Preparatory School or a Foundation School without a nomination. Please let me know if you have any other questions!

Very Respectfully,

Ma'am,

There is no separate application for NAPS. All applications that are reviewed by the Admissions Board are also considered for a spot at the Naval Academy Preparatory School and the Foundation program. Please see the website for more information.

Please let me know if you have any other questions!

Good Afternoon,

Your answers are below:

Does USNA consider eighth grade grades if they are included on the transcript? Freshman? Reason I am asking is, in eighth grade, I was a horrible student getting C's and below. Since then, I have changed drastically, achieving mostly A's and a few B's in both Honors and AP courses, accomplishing on the lacrosse field and in sailing, and initiating in tremendous leadership roles. Does USNA appreciate an upward trend in grades? **We do not consider 8th Grade only 9-12 and college. Upwards trend in grades is better than a downward trend.**

How does USNA differentiate amongst students grades? For example, Student A has 3 A's at a mediocre school while Student B has 3 B's at a top-ranked school? **Each scenario is different, but we do consider how competitive a school is in conjunction with how well a student does at the school, but ultimately higher grades shine through.**

If I took Italian (a non-modern language), will my admissions chances be changed since it is not modern? Even if I excelled significantly during four years of study? **We are looking for you to take a language language other than English during your time in high school, so this fits the description. Italian is still a language spoken in several countries.**

Does USNA accept high school AP Chemistry or Physics credit in place of USNA Chemistry or Physics? **Here is the answer: [course validation policy](#)**

Does USNA have any particularly good relations with specific prep schools? **Our Foundation Program does, which is an alternate to NAPS. You can find more about this program through the foundation website.**

What is the admissions criteria for NAPS? Do sailors from the fleet have a significantly increased chance of admission to the school if they meet or exceed academic requirements? **NAPS students, for both high school students and prior enlisted sailors and Marines, are selected by the Admissions board from students who apply to the Naval Academy, and we want them to come to school here, however they need more academic prep at a near college level.**

Do first generation Americans have a step up in admissions if they also meet all the academic, physical, and leadership requirements? **We do not release this information.**

Does USNA accept retaken course grades to supplement past mediocre course grades? **We accept all scores that are on an official transcript.**

Does USNA have a specific quota it needs to fill for first generation Americans and the ethnicities listed on the request for information form? **No.**

Is USNSCC a good way to show leadership potential aside from varsity athletics? **There are many different leadership roles apart from athletics. Best advice: lead in something that interests you.**

What academic and physical scores are considered "fully qualified?" I have read that few applicant each year are considered fully qualified, what does this mean exactly? **We do not release our scoring system, however what this means is the candidate is academically qualified (Grades, SAT/ACT, leadership), physically qualified (CFA), medically qualified, and received a nomination.**

I haven't received an email regarding my request for information. Is this normal? **You will receive correspondence from time to time throughout the year about our programs as well as when you should be applying as long as you entered in your information correctly.**

Semper Fidelis,
